

Dear Parents,

Pictured about is a drawing of Cody's West Parking Lot. In an attempt to ease crowding and improve safety for students and parents, we have diagrammed the "Flow-of-traffic" in the event you will be picking up your child in the future. Please read directions below:

A- cars enter the west parking lot off of Territorial Road

B- please try to park two-by-two if you can do so safely

C- begin to form single-file line in order for student(s) to be picked up at curb side

Please remember, if you need to exit your car in order to pick up your student(s), park in the parking lot (please not in the pick up lane) and come into the building. If at all possible, and your students are able to enter your vehicle without your assistance safely, please allow them to do so in order to keep our loading time to a minimum.

Respectfully,

Mr. Bradley
