

Bridgeview Drop-Off and Pick-Up Safety Improvements:

At Bridgeview, student safety is our highest priority. Several stakeholders have analyzed and decided upon the following procedures in order to ensure student safety while keeping traffic flowing sufficiently at peak times. Davenport Street from Stagecoach Trail to 11th Street is marked as a One Way Street. In that stretch, traffic is able to move from west to east only. Traffic is not able to enter Bridgeview traveling west on Davenport St. Likewise, 12th Street from the Bridgeview parking lot to Dodge Street is also marked as a One Way Street. Once again, traffic is not able to enter Bridgeview from 12th Street.

The right lane on Davenport Street is a right turn drop off/pick up lane only. This lane is only for those vehicles dropping off/picking up students with drivers remaining in their vehicles. Parents wishing to park and enter the building with their child should do so only at the designated crosswalk area near the Main Office Doors (E1). Vehicles leaving the Bridgeview parking lot may turn right (east) onto Davenport Street or continue straight (north) on 12th St.

It should be noted that students riding bicycles or skateboards to school must use the sidewalk access between Bridgeview and Dodge St and between Bridgeview and 11th St due to the new one way traffic designations. Riding the wrong direction on those streets will not be safe, and thus, is not permissible!
